## Update on Debt Ceiling.....

It's about 3 months until the Treasury Dept could run out of ways to prevent a debt default meaning time is running out for Republicans and Democrats to find common ground.

The Democrat Controlled Senate and White House want Congress to raise the debt limit with no strings attached while the Republican Majority House wants spending cuts to pay down the \$31 trillion debt.

**House Speaker McCarthy** wants limits on new discretionary funding as part of his plan to achieve a balanced budget in 10 years.

Many Republicans have looked to nondefense programs as a way to trim expenditures and capping spending other than Social Security and Medicare at fiscal year 2023 levels.

Other ideas being pitched include work requirements for Medicaid.... taking back unspent COVID-19 pandemic relief funds from state govts.....as far as entitlements are concerned, it's pretty safe to say Medicare and Social Security are OFF the table. Stay tuned.....

**Fla Legislative Session begins Tuesday, March 7 in Tallahassee. I represented Synergy Billing at a Fla Chamber PRE-session Legislative Fly-in last week in Tallahassee**

- **Senate President Kathleen Passidomo and House Speaker Paul Renner** agreed to work with **Gov DeSantis** on several tort reform measures...**HB 837** which would eliminate insurers paying plaintiff attorney fees who successfully file auto-accident lawsuits. The intent is to lower auto/property insurance. Plaintiffs' attorneys and Democrats say limiting lawsuits and legal fees unjustly affects injured individuals.
  - **HB 1/ SB 202** would make every Fla student eligible for state-backed vouchers...including private-school tuition. Bills would create flex-education savings accounts to be used for tutoring services and instructional needs.
- House Speaker Renner** highlighted **HB 3** which would block State investments related to ESG "environmental, social and governance" standards. ESG investment funds only include companies that adhere to their policies for climate change, racial inequity and supply-chain labor standards. It requires state/local government investment decisions to be made "solely on financial factors". State CFO Jimmy Patronis has already taken the reins on this issue as it relates to State funds.

Feb 15—**Daytona Beach City Commission** recently  
**modified their family occupancy STANDARDS and  
definition of “family”** as it pertains to their Land De-

This was done to address “dormitory living” taking
